DETAILED ACTION

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2,3,5,13-19 & 23 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 3/11/03.

Claims 1,4,6-12,24-26 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Ishihara et al 4974725 in view of Mart 4809455 or Bell 5672342 or Warberg 6337081

Applicant argues Ishihara and Warberg are not permanently closed, while Bell only collect & stores urine. Examiner finds Ishihara provides for any scent generating material, in a closed envelope container (col. 1 line 37-45). The requirement for unopenable (permanent) closure is not seen as either supported, or in the instant claim language- the referenced envelopes are closed, as instantly claimed. Bell provides one of the scent generating materials, urine, and an animal secreting gland (claim 5). Applicant's reference to dragline use is an example of how, also, use of urine(col. 3, lines 50-53) is possible.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
